LOWER NEHALEM COMMUNITY TRUST

Message from the Chair

Doug Firstbrook
Board Chair

Fiscal year 2010-2011 was a busy and successful year for LNCT. As Board Chair Olivia Mercado completed her tenure, the Trust entered the new fiscal year on a sound economic footing and well on the path to organizational sustainability.

Memberships and business sponsors have increased and the Trust has reorganized its donor categories that we might better recognize some of the larger donors who have stepped forward to show that they value the work being done by LNCT.

The work being, of course, the reason we exist and to that end the Trust was able to acquire an additional 19 acres that connect directly to the 54-acre Alder Creek Farm (ACF).

This parcel has been long sought after by the Trust and is the keystone piece in our desire to create ecological connectivity between the farm and the State Park. Sitka Wetlands, named for its dominant habitat type, includes fresh and estuarine wetlands, and some uplands along the entire bay front between ACF and the residentially developed Bayside Garden area. This acquisition along with the 14 acres west of Bayside Garden Road acquired previously as part of our North Edge protection strategy has put us in the enviable position of securing 90% of goal. We continue, of course, to pursue the remaining parcels while we investigate the availability of other high priority estuary properties.

The Coastal Food Ecology Center continues to shine as a key way to keep the community involved in a hands-on way. Community Garden and Permaculture Garden participation is at an all time high and a new orchard steward has stepped forward. Moving forward our goal is to increase our knowledge of sustainable agriculture practices and provide an increase in our contribution to the North County Food Bank.

Because of the generosity of our donors, we were able to have our first Stewardship Intern this summer. The timing couldn't have been better as acquisitions require not only management plans but also hands-on stewardship to meet the expectations of our community and institutional funders alike.

As we move into FY 2011-2012, increasing our capacity to both acquire and properly steward land will be foremost in our planning. The ability to bring ongoing projects to fruition, continue to engage volunteers and fulfill our management obligations will require both hard work and capital. We continue to be grateful to our community of volunteers, sponsors and donors who make it possible for us to do this work.

A handwritten signature in black ink that reads "Doug Firstbrook". The signature is written in a cursive, flowing style.
